## Product Information:

### Box Features & Benefits

- ✓ **Easy folding** design allows for a **high return ratio**, optimizing storage and transport efficiency.
- ✓ **Simple handling** for convenient **loading and unloading** operations.
- ✓ **Protective inserts** enhance **space efficiency** and ensure **product protection** during transit.
- ✓ **Secure sleeve locking system** maintains **safety and box integrity**.
- ✓ **Sealed edges** offered in **standard heights** for added durability.

### Product Options:

#### Single Box:

#### Loading Capacity:

400 – 6000 kg  
(customizable)

#### Material Weight (GSM):

3000 – 4500 gsm  
(customizable)

**Dynamic Performance:** 1 + 1

**Static Strength:** 1 + 3

**Height:** Customizable

Velcro fixtures

Label placards

Feet with access to forklift

# KAY KOMPAKT SLEEVE PALLET BOX

Plastic Pallet Sleeve Boxes consist of pallet (tray), Lid and PP plastic sleeve (PP honeycomb board)

## Product Information

### Features

Impact resistance, light weight, easy processing; wide usage; good strength, not easy to deform; good toughness, impact resistance.

The production process is simple, the production cost is low, and the uneven surface is small. Market main-stream products.

### Material

HDPE(Pallet + Lid) +PP(Sleeve)

### Application

Automobile Industry, Aviation Industry, Yacht Shipping, Rail, Logistics, Architectural Decoration and so on

### Box Door

Two sides open pickup ports according to customer requirements.
